

Angers, 01 June 2023

Press release:

Salim Rabbani appointed as Director of Morocco Operations at éolane Group

éolane announces the appointment of Salim Rabbani as Director of Morocco Operations for the Group, effective May 22, 2023. He will be based in Berrechid.

To support the group's growth in Morocco, which exceeds 30% of its turnover, éolane is pleased to welcome Salim Rabbani to lead the activities of the Berrechid and Temara sites.

With a mechanical engineering background and an MBA from ISCAE Morocco & North-eastern University USA, and with 25 years of experience in operational and managerial roles within international industrial groups, as well as industrial consulting in the EMEA region, Salim strengthens the France, Germany, and Morocco division.

As the head of the Morocco region, Salim will leverage his experience and expertise in implementing growth strategies that align with the Alizés strategic plan.

/// **Salim Rabbani expressed:** "I am delighted to join the éolane Group. The company's human scale, technical expertise, diverse range of products and clients, and ambitious strategic plan are among the key strengths that convinced me to join this dynamic, ambitious, and dedicated team. I am eager to contribute to this momentum with the teams for the greater benefit of our industrial clients."

A propos d'éolane – www.eolane.com

French EMS (Electronic Manufacturer Services), éolane designs cutting-edge PCBA in small, medium and large series for 8 front-line markets: defense, industry, telecoms, rail, automotive, health, energy and aeronautics.

Close to the challenges of the big names in French and international industry, numerous regional mid-sized companies and start-ups, éolane combines technological excellence, innovation strength and industrial capacity to offer tailor-made solutions. éolane's teams combine a wide range of expertise and certifications to support its customers throughout their products life cycle, from design to obsolescence management of electronic assemblies.

Its presence on 3 continents and on 3 regional hubs in France allows éolane to combine proximity, expertise and competitiveness. Its experience of more than 40 years and its constant desire for innovation make it the essential platform for industrial services.

With 2,400 employees worldwide, éolane is an international Made-In-France group, with exceptional know-how and committed teams serving all of its customers. In 2022, the group achieved a turnover of 314 Million euros (+9% increase).

In its approach of permanent innovation and to guarantee industrial and technological excellence at all times, in the beginning of 2021 éolane implemented a major transformation of its activities towards Industry 4.0 with its strategic plan ALIZES, making it possible to respond reactively, personalized and fluid to all of its customers.
